OPEN SEATING

A 20-foot lift-and-slide doorway system brings the outdoors in with this Encinitas remodel by interior design/architecture firm KW Designs of Solana Beach. The traditional beach bungalow now has an open-concept floor plan with views of the pool. The floors are white oak with a gray wash.

CLEAN KITCHEN

The jewel of the kitchen is its Calacatta marble backsplash, cut at angles for maximum visual interest. Kitchen amenities include quartz countertops, walnut cabinetry, floating shelves backlit with LED lighting, and appliances from Dacor, Bosch, and Liebherr. Tucked behind the kitchen is a butler's pantry for more storage and appliances.
